BRIEF ABSTRACT OF LETTER.

Solicits the issue of orders requiring officers of the Sanitary depts of or above the rank of Sany Asstt to a Dt Surgeon to parade the Sanitary Staff & equipment of towns & villages, which they are under their orders during their visit to towns & villages and to report on their condition to the Sany Commr.

NOTES AND ORDERS.

2) The Sany Commr. prefers the staff being under the orders of the Sany Officers during their visit to towns & villages as it will facilitate lots of odds & ends being set right by the staff in a very short time which otherwise will be hard of achievement. His proposal however

seems to be too vague to be intelligible and if appd, the Sany Commr will be requested to make his proposal clear by explaining the terms "Sanitary staff" & "equipment".

3) Subs with draft. The question relating to the appointment & Control of Sany Insprs was refd to the Dy Comrs of Dts for opinion on the 5th Dec 08 and their opinions are awaited.

8) There can be no objection to the San. Comr's proposal that officers of the San. dept. of and above the rank of San. Apts. be required to inspect the Sanitary Staff and Equipment and make a definite report on their condition. As regards the other proposal that the Staff should be regarded as under the Officer's orders during his visit to the place, it seems desirable to postpone it till the question of the appointment and control of Sanitary Inspectors which has been referred to Deputy Comrs for opinion is finally disposed of. If there is any improvement which may be carried out by the Sanitary Staff during the short visit of a Sanitary Officer, without dislocating the ordinary work of the village or town, the San. Officer may give the necessary instructions to the Sanitary Inspector or other man at the place and get the

Sir,

I have the honor to represent to His Highness's Govt. the necessity that exists for the Sanitary Department to make certain that the Sanitary Staff & Equipment of towns & villages paid for by people actually exists: For this purpose, when any officer of this Department, of, or above the rank of -- Sanitary Assistant to a District Surgeon, visits a town or -- village on duty he should be required to parade the Sanitary Staff & Equipment and make a definite report on their condition to me. Better still would it be, were it so ordered, that during the visit of any such officer the Sanitary Staff and Equipment should be regarded as under his orders, and -- that an important part of his duties would be to parade the -- Staff and Equipment and report on their condition to the Sany Commissioner for the information of Government if necessary.

My reason for preferring the latter alternative is that when I visit a town myself I see lots of odds and ends that could be put right by the existing Sanitary Staff in a very short time, in fact while I remain in the town- and a demonstration of this sort would be worth a month's talking to people who let what one says, in at one ear & out at the

other, or who in fact frequently don't follow what I say at all. I, of course, anticipate that the objection will be raised that such an order would mean the dislocation of the ordinary work of the village, but my reply is that a Sanitary Officer who would be capable of seriously and unnecessarily dislocating work is very unlikely to be appointed, and they may all be well trusted to exercise common sense in carrying out the duties that I now seek to have them entrusted with.
